Doctrine Development & TTP Publication Review

Navy Review Authorities

PRA Primary Review Authority

- Develops, reviews, maintains & approves NTTPs, NTRP & FXPs

- NWDC maintains & approves NWPs

CRA Coordinating Review Authority

- Assists PRA in developing, reviewing & evaluating NTTPs, NTRPs & FXPs

TCO Technical Cognizance Office

- Pub sponsor, provides technical assistance including funds & manpower

CC Contributing Command

- Review Pub for technical accuracy & technical content

Doctrine Development & TTP Publication Review

Navy Pub Revision Process

PD Program Directive

- Message issued by NWDC for development of new pub or revision to an existing pub
- Purpose & scope of the pub
- Assigns review authorities
- Chapter outline
- Lists existing Pubs impacted by the NTTP
- Development milestones & administrative procedures

First & final draft

- Review authorities submit CRM

Doctrine Development & TTP Publication Review

Joint Pub Revision Process

RFF Request for Feedback

- Joint Staff sends a host of general & specific questions about the utility of the pub & how to improve it
- SMEs in the warfare area with broad knowledge of relevant JP

GQ6	What sections of JP 3-02 are redundant, either internally or with other JPs; e.g., JPs 3-02.1, <i>Amphibious Embarkation and Debarkation Operations</i> ; and should be deleted or consolidated within JP 3-02 or with other JPs? Be specific; provide text and location.
SQ4	Have the steps in the amphibious planning process changed? If so, what steps need to be added, deleted, or changed? Be specific; provide references and LO/LI text where needed.

PD Directive

Similar to Navy PD

First & final draft

- Review authorities submit CRM

Doctrine Development & TTP Publication Review

Joint Pub Revision Process (Cont'd)

JDDT Joint Doctrine Development Tool

- Automates the process for comment matrix creation & adjudication
- NIPR - .mil CAC-enabled access only
- Login to <https://jddt.js.mil/>
- “unregistered user” / “returning user”
- Use JDDT Comment Key for TTGL review (i.e. TTGL4MAY12)

PROS

- Automated comment correlation
- No need to download documents

CONS

- Limited capability to search entire document
- Cumbersome to operate

DoD Notice and Consent

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only. By using this IS you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG-authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests--not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential.

If you do not accept these terms, close the application now.

d. **Achieve Common Objectives.** A large number of civilian agencies and organizations—many with indispensable practical competencies and significant legal responsibilities—interact with the Armed Forces of the United States and its multinational counterparts. Joint and multinational communication activities to support operations must be strategically integrated and operationally and tactically coordinated with the activities of participating USG agencies, IGOs, NGOs, host nation (HN) agencies, and the private

Doctrine Development & TTP Publication Review

Collection Requirements Management (CRM)

JP 3-32, C2 for Joint Maritime Operations (First Draft)

UNCLASSIFIED

ITEM	#	SOURCE	TYPE	PAGE	PARA	LINE	COMMENT	RATIONALE	DECISION (A/R/M)
+			S	0.02	3.b.	36.39	Delete: Commanders of forces operating as part of a multinational (alliance or coalition) military command ~~should follow multinational ratified by the United States~~ , commanders should evaluate and follow the multinational command's doctrine and procedures, where applicable and consistent with US law, regulations, and doctrine.	Sentence clarity.	
		TTGL	A	1.03	1.b	17.18	Delete: b. The maritime domain consists of ~~as the~~ oceans, seas, bays, estuaries, islands, coastal areas, and the airspace above these, including the littorals.	Typo.	
		TTGL	A	1.03	1.c.(4)	34.36	Change: (4) Maritime forces are mostly a self-deploying, self-sustaining, sea based expeditionary force, a combined-arms team, tailored to conduct operations across the range of military operations, from the sea. Maritime forces are manned, trained and equipped to operate with limited reliance ~~of on~~ ports or airfields.	Delete the adjective. Change the preposition.	
		TTGL	A	1.04	1.e.	2	Add: They also can be employed in littoral waters for the conduct of sea control or denial, <u>ballistic missile defense (BMD)</u> and function as joint force or component command and control (C2) platforms.	BMD is an important capability the Navy brings.	
		TTGL	A	1.04	1.f	7	Add: throughout the operational environment (physical domains <u>and</u> information environment to includes cyberspace)	Add conjunction. Delete s.	
		TTGL	S	1.06	3.f.	22	Change: <i>For more information on humanitarian assistance/disaster relief, see JP 3-28, <u>Defense Support to Civil Authorities Civil Support</u>;</i>	Correct the name of the pub.

STANDARDIZED COMMENT MATRIX PRIMER

The matrix below is a Word document table to be used as a template for submitting comments on draft publications and draft program directives. Except as noted below, an entry is required in each of the columns. To facilitate consolidating matrixes from various sources, do not adjust the column widths.

Column 1 – ITEM
Numeric order of comments. Accomplish with all comments from all sources are entered and sorted. To number the matrix rows, highlight this column only and then select the numbering ICON on the formatting tool bar.

Column 2 – #
Used to track comments by source. Manually enter numbers from the first comment to the last comment. These numbers will stay with the comment and will not change when consolidated with other comments.

Column 3 – SOURCE

J1 - J-1	JFCOM - US Joint Forces Command
J2 - J-2	NORTHCOM - US Northern Command
J3 - J-3	PACOM - US Pacific Command
J4 - J-4	SOCOM - US Special Operations Command
J5 - J-5	SOUTHCOM - US Southern Command
J6 - J-6	STRATCOM - US Strategic Command
J7 - J-7	TRANSCOM - US Transportation Command
J8 - J-8	DTRA - Defense Threat Reduction Agency
USA - US Army	DIA - Defense Intelligence Agency
USN - US Navy	DLA - Defense Logistics Agency
USAF - US Air Force	MDO - Missile Defense Organization
USMC - US Marine Corps	NSA - National Security Agency
USCG - US Coast Guard	DISA - Defense Information Systems Agency
CENTCOM - US Central Command	NGA - National Geospatial-Intelligence Agency
EUCOM - US European Command	LC - Joint Staff Office of Legal Counsel

Column 4 – TYPE

C – Critical (Contentious issue that will cause non-concurrence with publication)
M – Major (Incorrect material that may cause non-concurrence with publication)
S – Substantive (Factually incorrect material)
A – Administrative (grammar, punctuation, style, etc.)

Column 5 – PAGE
Page numbers expressed in decimal form using the following convention: (Page I-2 = 1.02, Page IV-56 = 4.56, etc.) This format enables proper sorting of consolidated comments.

0 – General Comments
0.xx – Preface, TOC, Executive Summary (Page i = 0.01, Page XI = 0.11)
1.xx – Chapter I
2.xx – Chapter II
3.xx – Chapter X, etc.
1.xx – Appendix A
2.xx – Appendix B
2.01.xx – Annex A to Appendix B
53.xx – Appendix C, etc.
99.xx – Glossary

NOTE: For Program Directives enter the page number as a whole number, (1, 2, 3, etc.) PDs are normally sorted by paragraph and line number and the page number helps to find the paragraph.

Column 6 – PARA
Paragraph number that pertains to the comment expressed. (i.e. 4a, 6g, etc.)

NOTE: An entry in this column should be used when commenting on draft program directives. An entry is optional for comments on draft joint publications.

Column 7 – LINE
Line number on the designated page that pertains to the comment, expressed in decimal form (i.e., line 1=1, line 4-5 = 4.5, line 45-67 = 45.67, etc.) For figures where there is no line number, use "F" with the figure number expressed in decimal form (i.e. figure II-2 as line number F2.02). For appendices, use the "F" and the appendix letter with the figure number (i.e. appendix D, figure 13 as line number FD.13; appendix C, annex A, figure 7 as line number FCA.07)

Column 8 – COMMENT
Provide comments using line-in-line-out format according to JSM 5711.01A, *Joint Staff Correspondence Preparation* (Examples are provided in CJCSI 5120.02, *Joint Doctrine Development System*. To facilitate adjudication of comments, copy and insert complete sentences into the matrix. This makes it unnecessary to refer back to the publication to understand the rationale for the change. Do not use Tools, Track Changes mode to edit the comments in the matrix. Include deleted material in the comment in the strike through

52.xx - Appendix B

52.01.xx - Annex A to Appendix B

99.xx - Glossary

Doctrine Development & TTP Publication Review

Collection Requirements Management (Cont'd)

Paragraph

- List the paragraph in which the comment is located
- Use the entire paragraph/subparagraph; i.e. 1.b.(3)(k) or 3.2.1.1

Line

- The line on the designated page that pertains to the comment
- Use decimal form for multiple lines; 27-30 = 27.30

Comment

- General comment applies to the entire Pub or throughout the Pub
- ~~Example: Change all references to CV (or CV/CVN) to CVN~~
Specific comments using line-out/underline format to CVN
 - Copy sentence from the pub & paste to the CRM
 - Line-out undesired information
 - Underline suggested replacement information

Doctrine Development & TTP Publication Review

Collection Requirements Management (Cont'd)

Examples

- Change: There are ~~four~~ three operational TLAM variants referenced in this publication.
- Add: The F/A-18 is a carrier capable twin-engine aircraft with maximum speeds above MACH 1.5 at 50,000 feet.
- Delete: The intent of this NTTP is to demonstrate that there are common tactics & procedures used by each of the principle warfare commanders (~~P~~WCs) and their coordinators.

Rational

- Provide concise, objective explanation of the rationale for the comment
- Use references if available
- PRA will either accept - A, reject - R or accept with modification - M
